\* **Symbols:** An asterisk (\*), plus sign (+) or pound sign (#) indicate that one or more coding variables may be used in place of the symbol to indicate a color or feature that does not affect washer efficiency.

~*Red italics* indicate that a product has been discontinued. Discontinued models are no longer manufactured, but may still be available in the marketplace.

~*Blue italics* indicate a US-only model

~*Green italics* indicate a Canada-only model

\***MEF**=Modified Energy Factor; a combination of Energy Factor and Remaining Moisture Content. MEF measures energy consumption of the total laundry cycle (washing and drying). It indicates how many cubic feet of laundry can be washed and dried with one KWh of electricity: the higher the number, the greater the efficiency.

\***WF**= Water Factor; number of gallons needed for each cubic foot of laundry. A lower number indicates lower consumption and more efficient use of water.

\*This listing conforms to Tier 3 on the Consortium for Energy Efficiency's (CEE) Clothes Washer Qualifying Product List.

**\*\*\*\*\* No water rebates will be given for the purchase of clothes washers that use silver ion technology\*\*\*\*\***
